

The AI "Cat-and-Mouse" Game: Governing Shadow AI Without Stifling Team Productivity AI 时代的“猫捉老鼠游戏”: 如何管理“影子 AI”，实现风险预防和团队生产力的双赢

Event Overview / 讲座简介:

Is your team secretly using AI? Even with strict IT firewalls, research suggests that over 70% of employees are using personal, unapproved AI tools to meet tight deadlines—a phenomenon known as "Shadow AI" or "Silent Outsourcing."

你的团队是否“秘密”地使用人工智能？尽管公司拥有 IT 防火墙，研究显示超过 70% 的员工私下使用未经批准的 AI 工具来处理工作任务，以配合赶工时间。这种现象被称为“影子人工智能”或“静默外包”。

While AI dramatically boosts productivity, it also exposes your company to severe data privacy and intellectual property risks. Simply banning AI is no longer a viable strategy. In this session, our expert speaker Mr. Teddy Liu will decode the "Cat-and-Mouse" game of AI governance. He will share practical, ready-to-use frameworks that empower managers across all departments to safely guide their teams, unlocking AI's potential without compromising corporate security.

虽然 AI 能大幅提升生产力，但也使企业面临数据泄露和版权风险。简单的“全面禁令”已不再有效。在本次研讨会中，专家演讲者刘泰迪将解读 AI 治理的“猫捉老鼠游戏”，分享实用的管理框架，帮助部门领导引导团队安全释放 AI 潜能，告别网络安全的焦虑！
